

IBRAHIM EISSA ABU ALGHAYTH

Software Engineering Student – Open to Internships

+966575234770 | ibrahim.abualg@gmail.com | Jeddah, Saudi Arabia | github | linkedin

ABOUT ME

Software Engineering student with experience in application development, design, and data analysis. Proven ability to build and test software solutions using Python, Java, and modern tools. Active participant in technical workshops and community initiatives. Seeking an internship in a technical field such as software development, data analysis, or system design to apply technical skills and contribute to real-world projects.

EDUCATION

- Bachelor of Software Engineering | University of Jeddah | 2023-Expected 2027
 - GPA: 4.85/5.0
-

PROJECTS

TDP-43 Loss: Chromosome X Transcriptomic Analysis

- Analyzed TDP-43 knockout vs. wild-type on Human Chromosome X (ALS).
- Built RNA-seq pipeline: FastQC, fastp, Salmon, DESeq2.
- Achieved 95.42% mapping rate, 97% read retention.
- Identified 23 differentially expressed genes (16 up, 7 down).

Eco Zone Hackathon

- Developed a rapid prototype for AI-driven environmental awareness system.
- Programmed an automated change detection without manual human input.

Cloud Hotel Booking App

- Designed a flight booking application with accessibility focus.
- Conducted user research with 55 participants.
- Created low/high-fidelity prototypes with AI assistant integration.

Additional Projects

- FlowPay: Digital payment system with security-focused interface and Dark Mode, consolidating 2 services.
 - HealthFy: Desktop healthcare application for medical records.
-

WORK EXPERIENCE

Bioinformatics Advanced Program – KAUST Academy:

- Completed 40+ hours intensive training with Distinction.
- Mastered Linux-based bioinformatics pipelines for genomic analysis.

Website Testing Contributor – UJ Innovate Platform:

- Conducted functional testing identifying front-end/back-end issues.
- Received Certificate of Appreciation from College of Computer Science & Engineering.

Events & Activities Member – Drone Club | Media & Design Member - GDG

- Supported the planning and execution of technical workshops and events.
-

SKILLS

- Programming: Python, Java, JavaScript, C, R, SQL (Basic) | Web: HTML, CSS
 - Bioinformatics: Linux/WSL, Salmon, DESeq2, FastQC, fastp | Design: Figma, Canva
 - Tools: Git, GitHub, VS Code, RStudio, Google Forms
 - Languages: Arabic, English
-

CERTIFICATIONS

- Introduction to Bioinformatics (Distinction) - KAUST | Jan 2026
- Python Programming Essentials - Rice/Coursera | Nov 2025
- Linux Commands & Shell Scripting - IBM/Coursera | Nov 2025
- Fundamental Skills in Bioinformatics - KAUST/Coursera | Nov 2025
- EmpowerMe Hackathon - INJAZ/Starbucks | Jul 2025
- UI/UX Design Workshop - Interface Path | Dec 2025
